

UIW / SAC Course Articulation for BFA 3D Animation Concentration

The aim of UIW's Computer Graphic Arts (CART) program is to prepare students for a demanding and competitive profession. Because the CART program requires a specific set of skills, all students must submit a portfolio for review. Passing this review is required for admittance to the CART major and for beginning classes at either the Graphic Design (Web/Print) track or 3D Animation track levels.

The Portfolio Review is held at the end of every Spring Semester. Students that have completed the *Foundations Courses* (see below) may apply for the review.

The *Bachelor of Fine Arts (BFA) Degree in Computer Graphic Arts* at the University of the Incarnate Word is a 128-hour degree plan with 45 UIW Core hours and 83 CART Core hours. Because our program is now a BFA, it usually takes transfer students between three and four years to graduate. Most university credits transfer in without incident; but the interdependent and sequential nature of the UIW Computer Graphic Arts program means that the content of student's previous college classes may not provide the necessary skills for advanced standing in a track or for admission into the track level classes.
